

One Health, One World Collaboration Research Initiative

Japanese

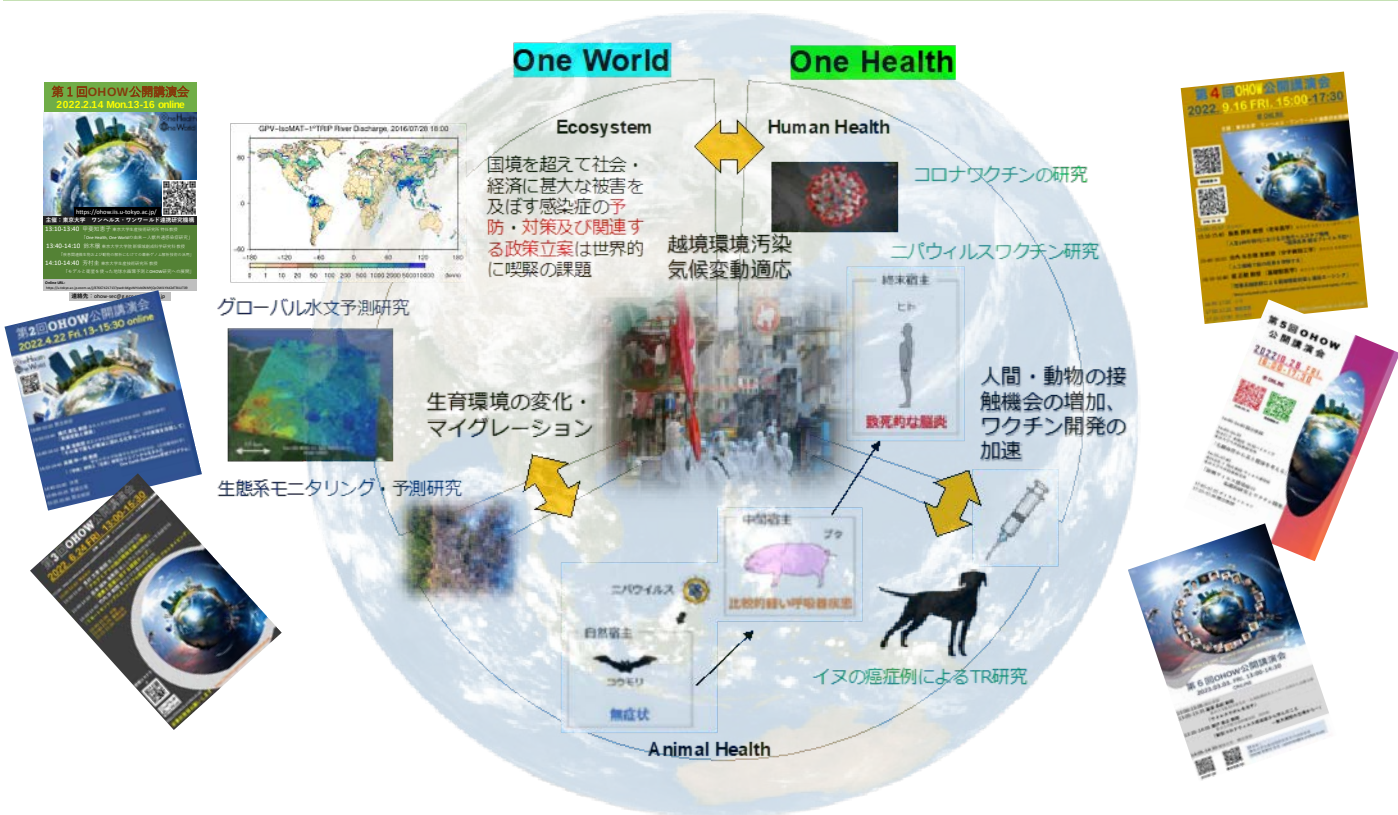

English

<https://ohow.iis.u-tokyo.ac.jp/>

- Institute of Industrial Science • Graduate School of Medicine
- Graduate School of Agricultural and Life Sciences
- Graduate School of Frontier Sciences • Graduate School of Information Science and Technology
- Institute of Medical Science • Institute for Future Initiatives

- To form a new academic research hub for comprehensive research on human and animal health and the global environment surrounding them as a single academic field.
- To consolidate and disseminate relevant information as a research center in Asia.
- To foster human resources who will be domestically and internationally active in this research field.

Prof.
Kei Yoshimura
Isotope Meteorology

Director-general
Prof.
Wataru. Takeuchi
Remote Sensing for
Environment and Disaster

Vice director-general
Project Prof.
Chieko. Kai
Infectious Disease Control Science

Project Prof.
Kazuo Oki
Global Monitoring for
Ecology and Environment

Assoc. Prof.
Dai Yamazaki
Global Hydrology

Prof.
Yukiko Matsunaga
Medical Biotechnology

Assoc. Prof.
Yoshiho Ikeuchi
Biomolecular & Cellular Engineering

Assoc. Prof.
Tsuyoshi Minami
Supramolecular Materials Design

Assoc. Prof.
Yudai Honma
Urban Environmental Engineering

Office
Eiko Yoshimoto
Project Specialist

1. Global terrestrial ecosystem and infectious disease research
2. Global terrestrial ecosystem and infectious disease research
3. One Health infectious disease research
4. Animal TR Center
5. Vector/Environment
6. Human TR Center
7. One Health Advanced Animal Disease Research

Prof.
Tomoki Todo
Surgical Neuro-Oncology

Prof.
Fumitaka Nagamura
Translational Research

Prof.
Shin-Ichiro. Takahashi
Animal Sciences

Prof.
Masatoshi Hori
Basic Veterinary Science

Prof.
Shoji Takeuchi
Biohybrid Systems

Prof.
Yutaka Suzuki
Genome Sciences

Prof.
Yasuyuki Seto
Gastrointestinal Surgery

Prof.
Katsuya Iijima
Geriatric Medicine

Prof.
Kensuke Fukushi
Environmental Engineering

Prof.
Ryozo Ooka
Urban Energy Engineering

Prof.
Masahiro Hashizume
Climate change & Health

Prof.
Tetsuya Kobayashi
Quantitative Biology
